FEVER SITUATION IS NOW HOPEFUL

More Deaths, But They Were Due to May Accept Any Terms Up to a Cer-High Temperature.

EVERY EFFORT BEING MADE TO LEADING PAPERS COUNSEL PUB-SAVE CITIZENS.

New Orleans, Aug. 1.—Following + the yellow fever record up to +

Total cases to date, 346. Deaths, 6.
Total deaths to date, 68.
New foci, 4. Total foci to date, 50.

Total foci to date, 50.

The day's record showed a continued improvement so far as the enw foci is concefned, and with no secondary infection from any of the existing foci, the general situation is regarded as hopeful. The large number of new cases, the largest yet reported in a single day, shows that the tertiary infection among the panic-stricken people in the original district is appearing which was to be expected. One of the new cases is on Jackson avenue in the residence district and the victim has returned recently to the city from his summer vacation on the coast.

EW ORLEANS, Aug. 1.—Today

on the futility of attacking men of straw before it is definitely known what terms the Japanese propose.

The Russ says:

"M. Witte has definite instructions as to what demands will be absolutely unacceptable and will know what course to adopt if such demands are presented. We are ignorant of the Japanese proposals, but will know what they are in a few days. Meanwhile let us wait."

Discussing the supposition that a combination of the powers might be foreign office, in an interview in the Gazette. declares that however much such a proposal might be advantageous to other powers presented.

***** N EW ORLEANS, Aug. 1.—Today witnessed an increase in the number of deaths from yellow fever, a fact that was not unexpected, in view of the high temperature that has prevailed the past two days. There was, however, the usual large preponderance of Italian names in the list both of new cases and deaths which has characterized the records are such as a considered. characterized the reports since the

characterized the reports since the time when the fever was first officially announced as existing here. In spite of the increased mortality, the health authorities exhibited no concern over the situation, contending that with the accumulation of cases there must be expected an increase in fatalities to maintain the average death rate of the fever. It is still possible to trace all the new cases that are appearing to the original focus.

Meantime the health authorities and citizens are making arrangements to give the results of their observations of the foci outside of the original district. The scientists have declared that the female sitegomyla can only receive the poisson of a yellow fever patient into her system during the first three days' illness, and that she is unable to communicate it until ten or' twelve days thereafter. In the communicate it until ten or' twelve days thereafter. In the communicate it until the communicate it until the or whether or not there is to be a spread from any of the outlying foci, and the health authorities will, by the beginning of next week, include in their daily tables, beside the appearance.

Campaign on Mosquitoes.

s on with great energy and per-though a light rain storm this

dinance was introduced in the city council tonight providing that all vacant lots and other places where water stands for more than six hours shall be filled to the grade required by the city engineer's surveys. Fine or imprisonment is to be the penalty.

The business districts continue to exert every effort to secure some modifications of the quarantine regulations, which have had the effect of bottling up the city commercially. With that object in rive President Souchon, of the-state board of health, who is in thorough sympathy with the efforts to secure a relaxation of the subordinate quarantine in Louisiana, today issued a proclamation on behalf of the state board of health to all the parishes and municipal health officers. He announces that he has accepted and recommends the acceptance by subordinate officers of the marine hospital health certificates to through passengers from northern points transferring in screened coaches to New Orleans. He declares that passengers from New Orleans after a detention of five days in marine hospital service camps, who are given certificates, should be admitted without detention into all parishes and towns of Louisiana. President Souchon says as to the handling of freight:

Freight All Fumigated.

Freight All Fumigated.

While recognizing the pressure under ich certain localities have quarantined ainst shipments of merchandise from which certain localities have quarantined against shipments of merchandise from New Orloans the state board of health earnestly deprecates such restriction as applied to merchandise and express matter, and recommends that no such restrictions be imposed after it becomes known that all freight cars from New Orleans are being funigated by the United States public health and marine hospital service before leaving the city."

Dr. White, of the marine service, spent most of the day on the gulf coast, in an endeavor to get a site for a detention camp on the Louisville & Nashville road. No permits are being issued to any person to enter the Avondale detention camp when such person intends going to or through Texas, owing to the Texas demand for five days' detention at the Sabine river.

The state of the most of the robberies. They were not held responsible with Plummer on the held responsible

through Texas, owing to the Texas demand for five days' detention at the Sabine river.

The detention camps at Avondale and Silded are reported to be filled, though those who occupy them are uncertain as to whether they can reach their destinations when the period of detention is up. Feople who live in the infected district all all gentleman who applied for a health all gentleman who applied for a health all gentleman who applied for a health stiff of the sick is obtainable at the fact that, while doctors generally are convinced that the best possible treated ment for the sick is obtainable at the emergency hospitals, there is no intention to force patients to go there whose families feel that they can be properly treated at home. This is being done to induce the prompt report of cases of fever in their incipient stages. So far as the health authorities are concerned, they say that every case even of suspicious fever ports being my the swert the feel that they can be properly treated at the intention to force patients to go there whose families feel that they can be properly treated at the intention to force patients are concerned, they say that every case even of suspicious fever ports being my the swert of the sale and popular wills are in the fact in the small towns of Louisiana and other states that it is not believed that many more such cases will be reported.

Nagasaki, Aug. I.—The steamer Man district, the detention is understood and the charled an outdoor at all and stream districts and a learny conversed and the green beautiful and properly the series of the sick is obtainable at the emergency hospitals, there is no intention to force patients to go there whose families feel that they can be properly treated that the post of the converse of the converse of the properly treated and the states that it is not converse to the properly treated and the properly treated the detail and properly the properly treated the properly

SNAPSHOTS AT REGISTRATION SCENES IN BUSY PROVO

Ment by Japanese.

Nagasaki, Aug. 1.—The steamer Manchuria, with the Taft party on board,

AGENT SUFFERS TORTURE Control of Logal THEY'RE OFF STATION WATER When the Circus Comes to Town.

REGISTRATION IS 5,467 ON THE OPENING DAY

At Provo More Than One-half the Total Number of Home-seekers Are Enrolled.

Little Difficulty in Handling the Crowds, Which Are Orderly and Well Behaved Everywhere-Thieves Working Trains and Secure Victims.

REGISTRATION YESTERDAY. . At Provo - - - - - 2,850 + At Price - - - - 188 + At Grand Junction - - 1,933

PROVO, Aug. 1.—Provo's registration was 2,850 today. The force at the booths had clear ground before them before 5 o'clock and at that hour them before 5 o'clock and at the before 5 o'clock and 5 o'clock and

****** police and deputy sheriffs these campers have yet registered, only those who had crops to attend to. The others are waiting for things to quiet down, and these, all of them young men, are in the big majority. Provo canyon for several miles up is one big camping ground. Men from Wassteb county and Kamas are ity. Wassich county and Kamas are liv-ing there in tents. As soon as they reg-lster many of these men are going out toward the reservation. They came in teams out of the mountains. They are

them before 5 o'clock and at that hour Commissioner Richards ordered the offices closed. A big delegation from southern Utah, which came in on the Sanpete Valley train, was too late and the southerners will have to take their chances tomorrow.

Tomorrow will probably see at least half as big a list as did today, and the next few days will not have any remarkable falling off, in the opinion of Provo people. Men from the northern part of Utah are coming in slowly. The rush is from the southern portion of the state. Sanpete county seems to lead up to this time.

In the "tent cities," where a large proportion of the men who come to register are staying, about 200 left this afternoon. As many immediately took their places. These, for the most part, came from the territory contiguous to the Sanpete Valley branches of the Rio Grande road and the Salt Lake

The hotels began to empty them.

Route.

The hotels began to empty themselves tonight, as the circus-going crowd vanished. But for the next week those who have charge of giving information and housing men and women look forward to a pretty constant influx. The town will be crowded for several days.

Great Influx From Country.

Great Influx From Country.

Less Than 2,

Seekers Are Enroiled.

Grand Junction, Colo., Aug. 1.—Strangers have already arrived, most of whom intend to register, and about 400 men intend to reg

vasion from the sister state, and this morning Governor Blanchard communicated with the captain of the naval brigade, which has a fully equipped gunto the borders to protect Louisiana citizens from further indignities. Missisippi has five armed boats patrolling the coast to prevent fishermen from breaking through the quarantine lines. These vessels are also assisted by the United States revenue cutter Winona. The Mississippi boats will not allow Louisiana fishermen to enter. Mississippi sound, east of St. Joseph light, but from reports received here it appears that one of these patrol boats came into Lage Borgne, which is distinctly Louisiana territory, and one report says it came up to the mouth of Lake Borgne canal, which extends from the lake to the Mississippi river, a distance of only four and a half miles.

Governor Blanchard also telegraphed Governor Vardaman of Mississippi as folws: "Have reliable information that Mis-

sissippi quarantine guards, armed, crossed over to Louisiana side at Pearl river. I do not believe this was on orders, but was the thoughtless conduct meraly of a few. To obviate unfavorable comment and friction, please give orders that your guards remain on their own side of the line."

Report From Souchon.

Late this afternoon Governor Blanch-ard received the following telegram from President Souchon of the state board of health:

and one report says it cames up to the mouth of Lake Borgne canal, which extends from the lake to the Mississippi river, a distance of only four and a half miles.

Will Send Armed Boat.

The naval brigade vessel Stranger draws too much water for service in that vicinity, but a light draft boat will be impressed, armed with a howitzer or two and manned by officers from the brigade, and will be sent to prevent further aggressions.

Some of the territory now patrolled by the Mississippi boats is now in dispute before the supreme court of the United States, both states having laid claim to it since the legislature of Louisiana created an oyster commission and passed laws to protect the valuable oyster beds in that vicinity. The state board of health received official notice of the appearance of fever in three other parishes today, but as the victims are all Italians or Austrians, and the connection with the infected district in New Orleans has been established, po alarm is felt over the news.

Later developments in the controversy between Louisiana and Mississippi donot lessen the seriousness of it. Commander Bostick of the naval brigade and General Persident Souchon of the state board of the lake. Is now guarding the exit of Lake Borgne canal, preventing dour attorney advises me to ask you to wire proper and invasion of Louisiana waters and our attorney advises me to ask you to wire proper lanchard then telegraphed Governor Vardaman of Mississippi: "Have information Mississippi: "Have information Mississippi: "Lake Borgne and are now guarding exit of Lake Borgne and a preventing dour attorney advises me to ask you to wire proper and are now guarding the view of the united States. The New York wire provident sample of the United States."
